

NICOLLET AVE

Grant St - Lake St | Vision Zero safety improvements

What we know

- Traffic safety impacts everyone
- A small amount of our streets (9%) are where the majority of severe and fatal crashes happen (66%)
- People walking and biking, and historically marginalized groups are overrepresented in severe and fatal crashes
- Quick-build safety improvements are proven quick and effective ways to address traffic safety

Safety improvements

- Nicollet Ave is identified as a High Injury Street from Grant St to Lake St
 - High Injury Streets are streets where the highest number of severe and fatal crashes occur in Minneapolis
- Quick-build safety improvements will be installed in 2023
- The type of improvements you will see along Nicollet Ave this year will include:
 - bumpouts
 - pedestrian medians
 - hardened centerlines

Our Goals

**SAFER
STREETS FOR
WALKING &
ROLLING**

**SAFER ROUTES
FOR BIKING**

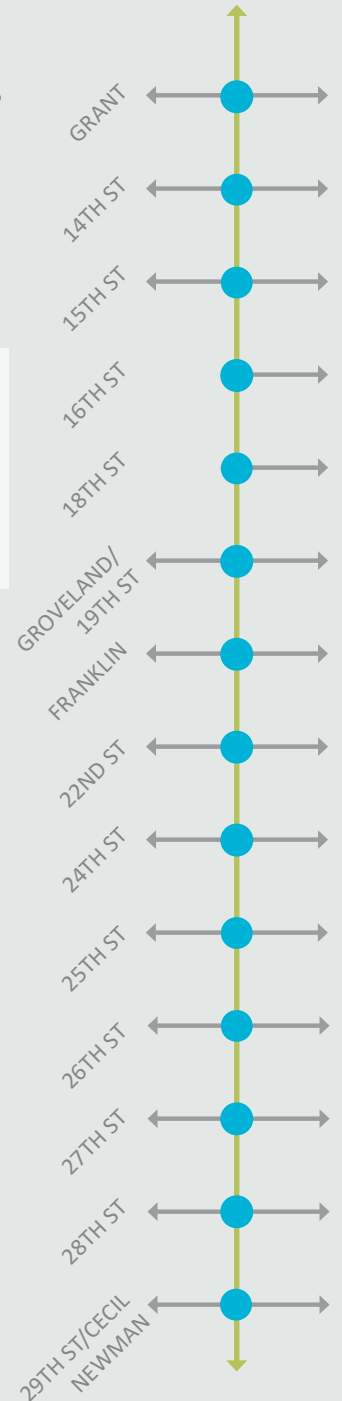

**SAFER
STREETS FOR
ALL PEOPLE**

**EQUITABLE
OUTCOMES
FOR ALL
COMMUNITIES**

Safety improvements will be installed at the following intersections:

- Nicollet Ave
- Intersection with planned Vision Zero improvements

Vision Zero Action Plan

This project is aligned with the Vision Zero Action Plan, the city's vision for creating safer streets and eliminating all traffic deaths and severe injuries on our streets.
