

Use of Force and De-Escalation Policy Violation Report 2023

As part of the Minneapolis Police Department's (MPD) commitment to transparency and building trust with the community, MPD will report out on an annual basis, the instances where an officer's use of force was not in compliance with MPD policies and/or where an officer's failure to de-escalate or insufficient de-escalation was not in compliance with MPD policies.

In the calendar year 2023, the Chief of Police reached a determination on three (3) instances where an officer was found to have:

- Used use of force that was not in compliance MPD policies
- Failed to de-escalate or used insufficient de-escalation

In all three instances, the Chief of Police imposed disciplinary and/or non-disciplinary corrective action. All instances have reached final disposition and are considered closed under the Minnesota Government Data Practices Act. Grievance Settlements are published on the MPD's discipline dashboard page.

[See the Police Discipline Decision Dashboard - City of Minneapolis \(minneapolismn.gov\)](https://www.minneapolismn.gov/police-discipline)

Citizen complaints about MPD Officers, are handled by the Office of Police Conduct Review (OPCR).
